FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2025

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-55838

Wrap Technologies, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

98-0551945

(I.R.S. Employer
Identification Number)

3480 Main Hwy, Suite 202

Miami, Florida 33133

(Address of principal executive offices) (Zip Code)

(800) 583-2652

(Registrant's Telephone Number, Including Area Code)

1817 W 4th Street

Tempe, Arizona 85281

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	WRAP	Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of May 14, 2025, a total of 50,577,168 shares of the Registrant's common stock, par value \$0.0001 per share ("Common Stock"), were issued and outstanding.

Notes to Condensed Consolidated Interim Financial Statements
(in thousands, except per share and share amounts)
(unaudited)

1. ORGANIZATION, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RECENT DEVELOPMENTS

Organization and Business Description

Wrap Technologies, Inc., a Delaware corporation (the “Company”, “we”, “us”, and “our”), is a publicly traded company with its common stock, par value \$0.0001 per share (“Common Stock”), listed on the Nasdaq Capital Market (“Nasdaq”) under the trading symbol “WRAP.” The Company is a developer and supplier of public safety products and training services for law enforcement and security personnel. The Company’s primary product is the BolaWrap® remote restraint device. The principal markets for the Company’s proprietary products and services are in North and South America, Europe, Middle East and Asia.

Basis of Presentation

The Company’s unaudited interim condensed consolidated financial statements included herein have been prepared in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X and the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) have been condensed or omitted pursuant to such rules and regulations. In management’s opinion, the accompanying financial statements reflect adjustments necessary to present fairly the financial position, results of operations, and cash flows for those periods indicated, and contain adequate disclosure to make the information presented not misleading. Adjustments included herein are of a normal, recurring nature unless otherwise disclosed in the footnotes. The condensed consolidated financial statements and notes thereto should be read in conjunction with the Company’s audited financial statements and notes thereto for the year ended December 31, 2024, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 (the “Annual Report”), as filed with the SEC on March 31, 2025 and as amended on April 25, 2025. The accompanying condensed consolidated balance sheet as of December 31, 2024 has been derived from the audited consolidated balance sheet as of December 31, 2024, contained in the Annual Report. Results of operations for interim periods are not necessarily indicative of the results of operations for a full year.

Where necessary, the prior year’s information has been reclassified to conform to the current year presentation.

Principles of Consolidation

The Company has two wholly owned subsidiaries, Wrap Reality, Inc., an Arizona corporation, formed in December 2020 that sells a virtual reality (“VR”) training system primarily targeting law enforcement agencies and Intrensic, LLC (“Intrensic”), which the Company acquired in August 2023, which specializes in Body Worn Camera and Digital Evidence Management solutions. The consolidated financial statements include the accounts of these subsidiaries after elimination of intercompany transactions and accounts.

Segment and Related Information

The Company operates as a single segment. The Company’s chief operating decision maker is Scot Cohen, the Company’s Executive Chairman and Chief Executive Officer, who manages operations for purposes of allocating resources. Refer to Note 15. Major Customers and Related Information for further discussion.

Goodwill

Goodwill represents the difference, if any, between the aggregate consideration paid for an acquisition and the fair values of the underlying net assets and liabilities assumed from an acquired business. Goodwill is not amortized, but instead is tested for impairment. The Company tests goodwill for impairment on an annual basis during the fourth quarter, or more frequently if conditions indicate that such impairment could exist. The Company evaluates qualitative factors to determine if it is more likely than not that the fair value of a reporting unit is less than its carrying value and whether it is necessary to perform goodwill impairment process.

Definite-lived Intangible Assets

Definite-lived intangible assets represent certain trade names, patents, licenses, software, acquired technology and customer relationships. Definite-lived intangible assets are recorded at cost less any accumulated amortization and accumulated impairment losses, if any. Definite-lived intangible assets acquired through the business combination are measured at fair value at the acquisition date. The Company amortizes these acquired definite-lived intangibles assets with a finite life on a straight-line basis, over 6 years for technology; between 3 and 7 years for customer relationships; and 8 years for trademarks and trade names.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions (e.g., stock-based compensation valuation, allowance for doubtful accounts, valuation of inventory and intangible assets, warranty reserve, accrued expense, valuation of warrants, and recognition and measurement of contingencies) that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and affect the reported amounts of revenue and expense during the reporting period. Actual results could materially differ from those estimates.

Warrants

The Company accounts for warrants as liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own shares of Common Stock and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. The Company accounts for the warrants issued in accordance with the guidance contained in ASC 815-40-15-7C, under which the warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the warrants as liabilities at their fair value and adjusts the warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in the Company's condensed consolidated statement of operations.

Series A Preferred Stock

The Company evaluates and accounts for conversion options embedded in its convertible instruments in accordance with ASC 480 and ASC 815 to determine if those instruments or embedded components of those instruments qualify as derivatives and are subject to bifurcation accounting. The Company determines that the economic characteristics and risks of the embedded derivative instrument are clearly and closely related to the economic characteristics and risks of the host contract. The convertible instruments are accounted for as a single hybrid instrument. Additionally, the convertible instruments do not have any redemption features that would preclude permanent equity classification in accordance with the guidance contained in ASC 480-10-S99.

The Company issued the Series A Warrants (as defined herein), which are classified as liabilities and measured at fair value on a recurring basis, and the Series A Convertible Preferred Stock (the "Series A Preferred Stock") in one transaction. The issuance proceeds were allocated by using the with-and-without method. Under this method, the Company first allocated the issuance proceeds to the Series A Warrants based on their initial fair value measurement, and then allocated the remaining proceeds to the Series A Preferred Stock.

Revenue Recognition

The Company recognizes revenue under ASC Topic 606 - Revenue from Contracts with Customers ("ASC 606"). Revenue is recognized when control of the promised goods or performance obligations for services is transferred to the Company's customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for the goods or services.

The Company enters into contracts that include various combinations of products, accessories, software and services, each of which are generally distinct and are accounted for as separate performance obligations. Product sales include BolaWrap products and accessories. Managed services revenue represents the consulting services provided to customers as a result of the Company's acquisition of W1, LLC ("W1") in February 2025. Other revenue includes VR revenues, service, training and shipping revenues.

The timing of revenue recognition may differ from the timing of invoicing to customers. The Company generally has an unconditional right to consideration when customers are invoiced, and a receivable is recorded. A contract asset is recognized when revenue is recognized prior to invoicing, or a contract liability (deferred revenue) when revenue will be recognized subsequent to invoicing. The Company recognizes an asset if there are incremental costs of obtaining a contract with a customer such as commissions. These costs are ascribed to or allocated to the underlying performance obligations in the contract. The Company may receive consideration, per terms of a contract, from customers prior to transferring goods to the customer. The Company records customer deposits as a contract liability. Additionally, the Company may receive payments, most typically for service and warranty contracts, at the onset of the contract and before the services have been performed. In such instances, a deferred revenue liability is recorded. The Company recognizes these contract liabilities as revenue after all revenue recognition criteria are met.

Estimated costs for the Company's standard warranty, generally one-year, are charged to cost of products sold when revenue is recorded for the related product. Royalties are also charged to cost of products sold.

Loss per Share

Basic loss per share (EPS) is computed by dividing net loss, less any dividends, accretion or decrction, redemption or induced conversion, if any, on our Series A Preferred Stock, by the weighted average number of shares outstanding during the reported period.

In computing diluted EPS, we adjust the numerator used in the basic EPS computation, subject to anti-dilution requirements, to add back the dividends (declared or cumulative undeclared) applicable to the Series A Preferred Stock. Such add-back would also include any adjustments to equity in the period to accrete the Series A Preferred Stock to its redemption price, or recorded upon a redemption or induced conversion, if any. We adjust the denominator used in the basic EPS computation, subject to anti-dilution requirements, to include the dilution from potential shares resulting from the issuance of the Series A Preferred Stock, restricted stock units, and stock options. Stock options and restricted stock units exercisable or issuable for a total of 7,595,515 shares and 5,476,219 shares of Common Stock were outstanding as of March 31, 2025 and 2024, respectively. These securities are not included in the computation of diluted net loss per common share for the periods presented as their inclusion would be antidilutive due to losses incurred by the Company.

Reclassification of Prior Year Presentation

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations. An adjustment has been made to the Consolidated Balance Sheet and Consolidated Statements of Cash Flows for the quarterly period ending March 31, 2024 and the fiscal year ended December 31, 2024, to reclassify the Series A Preferred Stock at par value.

Recently Issued Accounting Guidance Not Yet Effective

On November 4, 2024, the FASB issued ASU 2024-03,2 (“ASU 2024-03”) which requires disaggregated disclosure of income statement expenses for public business entities (“PBEs”). ASU 2024-03 does not change the expense captions an entity presents on the face of the income statement; rather, it requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. ASU 2024-03 adds ASC 220-40 to require a footnote disclosure about specific expenses by requiring PBEs to disaggregate, in a tabular presentation, each relevant expense caption on the face of the income statement that includes any of the following natural expenses: (1) purchases of inventory, (2) employee compensation, (3) depreciation, (4) intangible asset amortization, and (5) depreciation, depletion, and amortization (DD&A) recognized as part of oil- and gas-producing activities or other types of depletion expenses. The tabular disclosure would also include certain other expenses, when applicable. ASU 2024-03 does not change or remove existing expense disclosure requirements; however, it may affect where that information appears in the footnotes to the financial statements. ASU 2024-03 is effective for all PBEs for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. Early adoption is permitted. The Company has not yet adopted this ASU during the year ended December 31, 2024. The Company is currently evaluating the impacts of ASU 2024-03 on its financial statements.

2. REVENUE AND PRODUCT COSTS

Revenue consists of product revenue and other revenue. Product sales include BolaWrap products and accessories. Other revenue includes VR revenue, service, training and shipping revenue.

The timing of revenue recognition may differ from the timing of invoicing to customers. The Company generally has an unconditional right to consideration when customers are invoiced, and a receivable is recorded. A contract asset is recognized when revenue is recognized prior to invoicing, or a contract liability (deferred revenue) when revenue will be recognized subsequent to invoicing. The Company recognizes an asset if there are incremental costs of obtaining a contract with a customer such as commissions. These costs are ascribed to or allocated to the underlying performance obligations in the contract. The Company may receive consideration, per terms of a contract, from customers prior to transferring goods to the customer. The Company records customer deposits as a contract liability. Additionally, the Company may receive payments, most typically for service and warranty contracts, at the onset of the contract and before the services have been performed. In such instances, a deferred revenue liability is recorded. The Company recognizes these contract liabilities as revenue after all revenue recognition criteria are met. The table below details the activity in our contract liabilities during the three months ended March 31, 2025.

	Customer Deposits	Deferred Revenue
Balance at January 1, 2025	\$ 27	\$ 505
Additions, net	-	72
Transfer to revenue	-	(227)
Balance at March 31, 2025	\$ 27	\$ 350
Current portion	\$ 27	\$ 322
Long-term portion	\$ -	\$ 28

As of March 31, 2025, the Company’s deferred revenue of \$350 consisted of \$57 related to VR, \$234 related to Intrensic, \$54 related to BolaWrap extended warranties and services and \$5 related to training.

Estimated costs for the Company’s standard warranty, generally one-year, are charged to cost of products sold when revenue is recorded for the related product. Royalties are also charged to the cost of products sold.

3. FINANCIAL INSTRUMENTS

Assets and liabilities recorded at fair value on a recurring basis in the Condensed Consolidated Balance Sheets and assets and liabilities measured at fair value on a non-recurring basis or disclosed at fair value, are categorized based upon the level of judgment associated with inputs used to measure their fair values. The accounting guidance for fair value provides a framework for measuring fair value and requires certain disclosures about how fair value is determined. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The accounting guidance also establishes a three-level valuation hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether such inputs are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions made by the reporting entity. The three-level hierarchy for the inputs to valuation techniques is briefly summarized as follows:

Level 1—Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date;

Level 2—Inputs are observable, unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities; and

Level 3—Unobservable inputs that are significant to the measurement of the fair value of the assets or liabilities that are supported by little or no market data.

The following table shows the Company's short-term investments by significant investment category as of March 31, 2025, and December 31, 2024.

	As of March 31, 2025			
	Adjusted Cost	Unrealized Gains	Unrealized Losses	Market Value
Level 1:				
Money Market Funds	\$ 5,435	\$ -	\$ -	\$ 5,435
Total Financial Assets	<u>\$ 5,435</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,435</u>
	As of December 31, 2024			
	Adjusted Cost	Unrealized Gains	Unrealized Losses	Market Value
Level 1:				
Money Market Funds	\$ 2,945	\$ -	\$ -	\$ 2,945
Total Financial Assets	<u>\$ 2,945</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,945</u>

Unrealized gains or losses resulting from our short-term investments are recorded in accumulated other comprehensive gain or loss as they are classified as available for sale. During the three months ended March 31, 2025, as well as the three months ended March 31, 2024, no gain (loss) was recorded to comprehensive loss.

The warrant liabilities are measured at fair value on a recurring basis. The subsequent measurement of the warrant liabilities as of March 31, 2025, is classified as Level 3 due to the use of an observable market quote in a non-active market and the management's assumption of the expected stock price volatility.

The following table presents the fair value in the beginning of the period, the changes in the fair value, and the fair value at the end of the period of warrant liabilities:

Level 3:	March 31, 2025	December 31, 2024
Fair value at inception for December 31, 2024 or the beginning of the period for March 31, 2025	\$ (10,131)	\$ (19,703)
Warrants issued with Private Placement	(5,185)	-
Change in fair value of warrant liabilities	4,029	9,572
Fair value as of period end	<u>\$ (11,287)</u>	<u>\$ (10,131)</u>

The Company uses the modified Black-Scholes option pricing model to determine the fair value of warrant liabilities. The following table summarizes the assumptions used to compute the fair value of the Company's warrants:

	As of March 31, 2025	As of December 31, 2024
Expected stock price volatility	88%	88%
Risk-free interest rate	3.97%	4.25%
Dividends yield	0%	0%
Weighted average expected life of warrants (years)	3.78	3.50
Weighted average exercise price	\$ 1.56	\$ 1.45

Our other financial instruments also include accounts receivable, accounts payable, accrued liabilities and customer deposits. Due to the short-term nature of these instruments, their fair values approximate their carrying values on the balance sheet.

4. INVENTORIES

Inventory is recorded at the lower of cost or net realizable value. The cost of substantially all the Company's inventory is determined by the FIFO cost method. Inventories consisted of the following:

	March 31, 2025	December 31, 2024
Finished goods	\$ 4,350	\$ 4,387
Raw materials	2,229	2,263
Reserve for Obsolescence	(498)	(480)
Inventories - net	<u>\$ 6,081</u>	<u>\$ 6,170</u>

5. PROPERTY AND EQUIPMENT, NET

Property and equipment consisted of the following:

	March 31, 2025	December 31, 2024
Production and lab equipment	\$ 432	\$ 432
Tooling	570	570
Computer equipment	231	229
Furniture, fixtures and improvements	120	120
	<u>\$ 1,353</u>	<u>\$ 1,351</u>
Accumulated depreciation	(1,245)	(1,205)
Property and equipment, net	<u>\$ 108</u>	<u>\$ 146</u>

Depreciation expense was \$40 and \$116 for the three months ended March 31, 2025 and 2024, respectively.

6. INTANGIBLE ASSETS

Intangible Assets, net

Intangible assets, net consisted of the following:

	March 31, 2025	December 31, 2024
Amortizable intangible assets:		
Patents	\$ 1,052	\$ 1,013
Trademarks	269	264
Purchased software and technology	1,752	1,752
Customer Relationships	215	160
	\$ 3,287	\$ 3,189
Accumulated amortization	(1,370)	(1,256)
Total amortizable	\$ 1,917	\$ 1,933
Indefinite life assets (non-amortizable)	421	421
Total intangible assets, net	<u>\$ 2,338</u>	<u>\$ 2,354</u>

Amortization expense was \$115 and \$107 for the three months ended March 31, 2025 and 2024, respectively.

As of March 31, 2025, future amortization expense is as follows:

2025 (9 months)	\$ 355
2026	386
2027	236
2028	221
2029	186
Thereafter	533
Total estimated amortization expense	<u>\$ 1,917</u>

7. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

We are obligated to pay royalties pursuant to an exclusive Amended and Restated Intellectual Property License Agreement (the “License Agreement”), dated as of September 30, 2016, with Syzygy Licensing, LLC (“Syzygy”), a private technology invention, consulting and licensing company owned and controlled by Elwood G. Norris, a founder and former officer and current 5% or greater stockholder of the Company, and James A. Barnes, a former officer and stockholder of the Company (see Note 13). Accounts payable includes \$81 due to Syzygy as of March 31, 2025, and December 31, 2024.

Accrued liabilities consist of the following:

	March 31, 2025	December 31, 2024
Patent and legal costs	\$ 60	\$ 60
Accrued compensation	212	121
Warranty costs	78	83
Royalty	81	81
Contract settlement	-	300
Accrued purchases	279	584
Taxes and other	415	174
Total	<u>\$ 1,125</u>	<u>\$ 1,403</u>

Changes in our estimated product warranty costs were as follows:

	Three Months Ended March 31,	
	2025	2024
Balance, beginning of period	\$ 83	\$ 72
Warranty settlements	(7)	(42)
Warranty provision	2	21
Balance, end of period	<u>\$ 78</u>	<u>\$ 51</u>

8. WARRANTS

On June 29, 2023, the Company entered into a Securities Purchase Agreement (the “Series A Purchase Agreement”) with certain directors of the Company and certain accredited and institutional investors (collectively, the “Series A Investors”), pursuant to which it agreed to sell to the Series A Investors in a registered direct offering (the “Series A Offering”): (i) an aggregate of 10,000 shares of the Company’s newly-designated Series A Convertible Preferred Stock, with par value \$0.0001 per share and a stated value of \$1,000 per share (the “Series A Preferred Stock”), initially convertible into up to 6,896,553 shares of Common Stock, at an initial conversion price of \$1.45 per share (the “Conversion Price”), and (ii) warrants to acquire up to an aggregate of 6,896,553 shares of Common Stock (the “Series A Warrants”).

Each Series A Warrant has an exercise price of \$1.45 per share, became exercisable after the date that was six months from the date of issuance and will expire 5 years following the date of issuance. The exercise price is subject to customary adjustments for stock dividends, stock splits, reclassifications and the like, and subject to price-based adjustment, on a “full ratchet” basis, in the event of any issuances of Common Stock, or securities convertible, exercisable or exchangeable for Common Stock, at a price below the then-applicable exercise price (subject to certain exceptions). The closing of the Series A Offering occurred on July 3, 2023. The aggregate gross proceeds from the Series A Offering were \$10,000, of which \$7,717 was allocated to the Series A Warrants.

On February 24, 2025, the Company entered into a securities purchase agreement (the “PIPE Purchase Agreement”) with certain accredited investors (collectively, the “PIPE Purchasers”) for the issuance and sale in a private placement (the “Private Placement”) of an aggregate of 3,216,666 shares (the “Common Shares”) of Common Stock and accompanying warrants (“PIPE Warrants”) to purchase up to 3,216,666 shares of Common Stock, with an exercise price of \$1.80 per share. The purchase price for one Common Share and accompanying PIPE Warrant was \$1.80. The gross proceeds to the Company were \$5,790 before estimated offering expenses payable by the Company, of which \$5,185 was allocated to the PIPE Warrants.

9. LEASES

The Company determines if an arrangement is a lease at inception. The guidance in FASB ASC Topic 842, Leases defines a lease as a contract, or part of a contract, that conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration. Operating lease right of use (“ROU”) assets and lease liabilities are recognized based on the present value of future minimum lease payments over the lease term at commencement date. The Company’s leases do not provide an implicit rate. Due to a lack of financing history or ability, the Company uses an estimate of low-grade debt rate published by the Federal Reserve Bank as its incremental borrowing rate based on the information available at the commencement date in determining the present value of future payments. The ROU asset includes any lease payments made and excludes lease incentives and initial direct costs incurred.

For leases beginning on or after January 1, 2019, lease components are accounted for separately from non-lease components for all asset classes. On January 21, 2023, the Company’s lease was amended to extend the expiration date to July 31, 2025. Upon execution of the amendment, which was deemed a lease modification, the Company reassessed the lease liability using the discount rate determined at the modification date and recorded an additional ROU asset for the same amount. The Company’s lease contains renewal provisions and escalating rental clauses and generally requires the Company to pay utilities, insurance, taxes and other operating expenses. The renewal provisions of the existing lease agreement were not included in the determination of the operating lease liabilities and the ROU assets. The Company also reassessed the lease classification and concluded that the lease continues to be an operating lease.

Amortization expense was \$74 and \$71 for the three months ended March 31, 2025, and 2024, respectively.

Operating lease expense for capitalized operating leases included in operating activities was \$156 and \$249 for the three months ended March 31, 2025, and 2024, respectively.

Operating lease obligations recorded on the balance sheet at March 31, 2025 are:

Operating lease liability- short term	\$	570
Operating lease liability - long term	\$	1,552
Total Operating Lease Liability	\$	2,122

Future lease payments included in the measurement of lease liabilities on the balance sheet at March 31, 2025 for future periods are as follows:

2025 (9 months)	\$	413
2026		507
2027		522
2028		538
2029		554
Thereafter		717
Total future minimum lease payments	\$	3,251
Less imputed interest		(1,129)
Total	\$	2,122

The weighted average remaining lease term is 5.89 years, and the weighted average discount rate is 14.80%.

Certain leases contain provisions for payment of real estate taxes, insurance and maintenance costs by the Company. These expenses are treated as variable lease payments and recognized in the period in which the obligation for those payments was incurred. The Company had \$23 and \$9 variable lease expenses for the three months ended March 31, 2025 and 2024, respectively.

The Company had \$0 and \$11 short-term lease expense for the three months ended March 31, 2025 and 2024, respectively. The Company does not have any finance leases.

10. STOCKHOLDERS' EQUITY

The Company's authorized capital consists of 150,000,000 shares of Common Stock and 5,000,000 shares of preferred stock, par value \$0.0001 per share ("Preferred Stock"), of which 10,000 are designated as Series A Preferred Stock.

On July 3, 2023, the Company filed the Certificate of Designations of the Series a Preferred Stock (the "Certificate of Designations") with the Secretary of State of the State of Delaware, designating 10,000 shares of its Preferred Stock as Series A Convertible Preferred Stock. The terms of the Series A Preferred Stock are as set forth in the form of Certificate of Designations of the Series A Preferred Stock (the "Certificate of Designations"). The Series A Preferred Stock is convertible into shares of common stock (the "Conversion Shares") at the election of the holder at any time at an initial conversion price of \$1.45 (the "Conversion Price"). The Conversion Price is subject to customary adjustments for stock dividends, stock splits, reclassifications and the like, and subject to price-based adjustment in the event of any issuances of Common Stock, or securities convertible, exercisable or exchangeable for common stock, at a price below the then-applicable Conversion Price (subject to certain exceptions).

The holders of the Series A Preferred Stock are entitled to dividends of 8% per annum, compounded monthly, which are payable in cash or shares of Common Stock, or a combination thereof, at the Company's option in accordance with the terms of the Certificate of Designations. Upon the occurrence and during the continuance of a Triggering Event (as defined in the Certificate of Designations), the Series A Preferred Stock will accrue dividends at the rate of 20% per annum. If the Company elects to pay any dividends in shares of Common Stock, the Conversion Price used to calculate the number of shares issuable will be equal to the lower of (i) the then applicable Conversion Price and (ii) 85% of the arithmetic average of the three (3) lowest closing prices of the Company's Common Stock during the twenty (20) consecutive trading day period ending on the trading day immediately preceding the dividend payment date, provided that such price shall not be lower than the lower of (x) \$0.2828 (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) and (y) 20% of the "Minimum Price" (as defined in Nasdaq Stock Market Rule 5635) on the date of the Stockholder Approval (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) or, in any case, such lower amount as permitted, from time to time, by the Nasdaq Stock Market.

On August 19, 2024, the Company entered into an Amendment Agreement (the "August 2024 Amendment") with the Required Holders (as defined in the Certificate of Designations). Pursuant to the August 2024 Amendment, the Required Holders agreed that (A) the unpaid and accrued dividends on the Series A Preferred Stock due July 1, 2024 (the "July Delinquent Dividend Amount"), shall be payable, at the option of the Company, in (i) cash and/or (ii) shares of Common Stock, at a price per share of Common Stock equal to the lower of (x) \$1.00 and (y) the Dividend Conversion Price (as defined in the Certificate of Designations), using July 1, 2024, as the applicable date of determination in accordance with the Certificate of Designations; (B) the dividends due on October 1, 2024 (the "October Dividend Amount" and, together with the July Delinquent Dividend Amount, the "Delinquent Dividend Amounts"), shall be payable in shares of Common Stock based on a per share price of Common Stock equal to 80% of the arithmetic average of the three (3) lowest closing sale prices of the Common Stock during the month of September 2024; and (C) such Delinquent Dividend Amounts and any Dividend Balance Shares (as defined in the Certificate of Designations), with respect thereto, if applicable, shall be delivered on October 1, 2024. The Company and the Required Holders further agreed pursuant to the August 2024 Amendment to amend (i) the Certificate of Designations, as described below, by filing a Certificate of Amendment to the Certificate of Designations (the "August 2024 Certificate of Amendment") and (ii) the Series A Purchase Agreement to amend the definition of "Excluded Securities." The August 2024 Certificate of Amendment amends the Certificate of Designations to, among other things, (A) allow for the payment of dividends in the form of Common Stock to a holder of the Series A Preferred Stock who serves as a director, officer or employee of the Company; provided that such issuance is approved by the Company's stockholders prior to such issuance, and (B) amend certain conditions required for (i) a mandatory conversion of the Series A Preferred Stock (as described below), and (ii) the Company's right to redeem, all or a portion, of the Series A Preferred Stock outstanding pursuant to an optional redemption (as described below), in each case, pursuant to the terms of the Certificate of Designations.

Pursuant to the August 2024 Certificate of Amendment, the Company may require holders to convert their shares of Series A Preferred Stock into shares of Common Stock if the closing price of the Company's Common Stock exceeds \$8.00 per share (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) for 20 consecutive trading days and the daily dollar trading volume of the Common Stock exceeds \$2,000,000 per day during the same period, provided that certain equity conditions described in the Certificate of Designations are satisfied.

Pursuant to the August 2024 Certificate of Amendment, at any time beginning 18 months from the date of the issuance, provided that the Company has filed all reports required to be filed by it pursuant to the Exchange Act on a timely basis for a continuous period of one year and provided further that certain equity conditions described in the Certificate of Designations are satisfied, the Company has the right to redeem in cash all or some of the shares of the Series A Preferred Stock outstanding at such time at a redemption price equal to the product of (x) 125% multiplied by (y) the sum of (A) the stated value of the Series A Preferred Stock plus (B) all declared and unpaid Dividends on such Preferred Stock and any other unpaid amounts then due and payable hereunder with respect to such Series A Preferred Stock, plus (C) the make-whole amount, plus (D) any accrued and unpaid late charges with respect to such stated value and amounts payable pursuant to clause (B) as of such date of determination.

On October 14, 2024, the Company entered into an Amendment Agreement with the Required Holders (as defined in the Certificate of Designations), pursuant to which, the Required Holders agreed to amend the Certificate of Designations of the Company's Series A Preferred Stock, as described below, by filing a Certificate of Amendment to the Certificate of Designations (the "October 2024 Certificate of Amendment"). The October 2024 Certificate of Amendment amends the Certificate of Designations to, among other things, provide that, except as required by applicable law, the holders of the Series A Preferred Stock will be entitled to vote with holders of the Common Stock on an as converted basis, with the number of votes to which each holder of Series A Preferred Stock is entitled to be calculated assuming a conversion price of \$1.414 per share, which was the Minimum Price (as defined in Rule 5635 of the Rule of the Nasdaq Stock Market) applicable immediately before the execution and delivery of the Series A Purchase Agreement, subject to certain beneficial ownership limitations as set forth in the Certificate of Designations. The October 2024 Certificate of Amendment further provides that (i) certain holders of the Series A Preferred Stock will not be subject to certain beneficial ownership limitations as described in the Certificate of Designations, and (ii) stockholder approval will not be required in connection with the payment of dividends in the form of Common Stock to a holder of the Series A Preferred Stock who serves as a director, officer or employee of the Company. The October 2024 Certificate of Amendment was filed with the Secretary of State of the State of Delaware, effective as of October 14, 2024. The holders of the Series A Preferred Stock have no voting rights, other than with respect to certain matters affecting the rights of the Series A Preferred Stock.

On November 25, 2024, the Company entered into an Amendment and Agreement with the Series A Investors (the "November 2024 Amendment Agreement"), pursuant to which, (i) the Series A Investors agreed to amend the Certificate of Designations, as described below, by filing a Certificate of Amendment to the Certificate of Designations with the Secretary of State (the "November 2024 Certificate of Amendment"), and (ii) the Series A Investors and the Company agreed that all payment amounts that have accrued and are unpaid as of November 25, 2024, pursuant to the Certificate of Designations and the August 2024 Amendment will be satisfied by delivery of shares of Common Stock on or prior to November 25, 2024, with each Series A Investor entitled to receive the number of shares of Common Stock specified below such Series A Investor's name on its respective signature page thereto. The November 2024 Certificate of Amendment amends the Certificate of Designations to provide that upon the occurrence of a Triggering Event (as defined in the Certificate of Designations), the Series A Preferred Stock will accrue dividends compounded monthly at the rate of 20% per annum. The Certificate of Amendment became effective with the Secretary of State on December 6, 2024.

At the time of issuance, \$2,036 of the net proceeds less transaction cost of the Series A Purchase Agreement was allocated to the 10,000 shares of Series A Preferred Stock initially issued. As of December 31, 2024, a total of 1,793 shares of Series A Preferred Stock were converted into approximately 1,468,000 shares of Common Stock. There were no additional conversions in the three months end March 31, 2025. As of March 31, 2025, the Company has authorized, declared and paid \$164 in dividends in the form of shares of the Company's Common Stock during the three months ended March 31, 2025. For the three months ended March 31, 2024, authorized and declared dividends totaling \$189, of which \$60 was paid in cash, \$129 was paid in shares of the Company's Common Stock.

11. SHARE-BASED COMPENSATION

On March 28, 2017, the Company adopted, and the Company's stockholders approved, the Wrap Technologies, Inc. 2017 Equity Incentive Plan (the "2017 Plan"), which was adopted by the Board on November 12, 2024, subject to stockholder approval. Under the 2017 Plan as originally adopted, the Company initially reserved 2,000,000 shares of Common Stock for issuance as awards under the 2017 Plan. The 2017 Plan was amended by the First Amendment to the 2017 Plan to increase the total number of shares of Common Stock for issuance under the 2017 Plan to 4,100,000 shares, which was adopted by the Board on March 16, 2019, and by stockholders on May 23, 2019. The 2017 Plan was also amended by the Second Amendment to the 2017 Plan to increase the total number of shares of Common Stock for issuance under the 2017 Plan to 6,000,000 shares which was adopted by the Board on April 8, 2020, and by stockholders on June 5, 2020. The 2017 Plan was also amended by the Third Amendment to the 2017 Plan to increase the total number of shares of Common Stock for issuance under the 2017 Plan to 7,500,000 shares which was adopted by the Board on April 23, 2021, and by stockholders on June 22, 2021. The 2017 Plan was also amended by the Fourth Amendment to the 2017 Plan to increase the total number of shares of Common Stock for issuance under the 2017 Plan to 9,000,000 shares which was adopted by the Board on April 22, 2022, and by our stockholders on June 23, 2022. The 2017 Plan was amended by the Fifth Amendment to the 2017 Plan to increase the total number of shares of Common Stock for issuance under the 2017 Plan to 16,500,000 shares which was adopted by the Board on November 12, 2024, and by our stockholders on December 23, 2024.

As of March 31, 2025, there were 4,848,259 shares of Common Stock remaining available for grant under the 2017 Plan.

Stock Options

The following table summarizes stock option activity for the three months ended March 31, 2025:

	Options on Common Shares	Weighted Average		Aggregate Intrinsic Value
		Exercise Price	Remaining Contractual Term	
Outstanding January 1, 2025	3,944,284	\$ 2.12	8.30	\$ 1,486
Granted	2,299,427	\$ 2.06	-	-
Exercised	-	\$ -	-	-
Forfeited, cancelled, expired	(147,500)	\$ 5.43	-	-
Outstanding March 31, 2025	6,096,211	\$ 2.02	8.98	\$ 1,343
Exercisable March 31, 2025	1,385,081	\$ 2.64	7.62	\$ 370

As of March 31, 2025, there were 4,806,045 service-based stock options outstanding, and 1,290,166 performance-based stock options outstanding which were granted in October 2023 to the Company's current Chief Executive Officer, subject to vesting based on future market capitalization targets.

The Company uses the Black-Scholes option pricing model to determine the fair value of the service-based options that have been granted. The following table summarizes the assumptions used to compute the fair value of options granted to employees and non-employees:

	For the Three Months Ended March 31,	
	2025	2024
Expected stock price volatility	76%	76%
Risk-free interest rate	4.28%	3.89%
Expected dividend yield	0%	0%
Expected life of options	6.00	6.00
Weighted-average fair value of options granted	\$ 1.47	\$ 2.29

Estimated volatility is a measure of the amount by which the Company's stock price is expected to fluctuate each year during the expected life of awards. The Company's estimated volatility was based on an average of the historical volatility of peer entities whose stock prices were publicly available. The Company's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price. The Company records forfeitures as they are incurred.

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the options. The dividend yield of zero is based on the fact that the Company has never paid cash dividends and has no present intention to pay cash dividends. The Company calculates the expected life of the options using the Simplified Method for the employee stock options as the Company does not have sufficient historical exercise data.

Stock option expense was \$387 and \$484 for the three months ended March 31, 2025 and 2024, respectively.

Restricted Stock Units

The Plan provides for the grant of restricted stock units (“RSUs”). RSUs are settled in shares of the Company’s Common Stock as the RSUs vest. The following table summarizes RSU activity for the three months ended March 31, 2025:

	Service-Based RSU's	Weighted Average Grant Date Fair Value	Weighted Average Vesting Period (Years)
Unvested at January 1, 2025	988,102	\$ 2.25	3.67
Granted - service based	585,359	2.03	-
Vested	(74,157)	1.99	-
Forfeited and cancelled	-	-	-
Unvested at March 31, 2025	1,499,304	2.18	2.47

The Company used the Monte Carlo Simulation Model to value at the grant date the aggregate of 632,911 market condition performance RSUs granted in January 2024 to the Company’s Chief Executive Officer. The assumptions used in the Monte Carlo Simulation were stock price on the date of grant equal to \$3.40, a contract term of 10 years, expected volatility of 78% and risk-free interest rate of 4.10%. Vesting is based on sustained market capitalization of \$1 billion, and the derived service period is 4.3 years.

RSU expense was \$1,278 and \$191 for the three months ended March 31, 2025 and 2024, respectively.

Share-Based Compensation Expense

The Company recorded share-based compensation for options and RSUs in its statements of operations for the relevant periods as follows:

	Three Months Ended March 31,	
	2025	2024
Selling, general and administrative	\$ 1,603	\$ 647
Research and development	62	28
Total share-based expense	\$ 1,665	\$ 675

As of March 31, 2025, total estimated compensation cost of stock options granted and outstanding but not yet vested was \$5,304 which is expected to be recognized over the weighted average period of 3.03 years.

As of March 31, 2025, total estimated compensation cost of RSUs granted and outstanding but not yet vested was \$1,540, which is expected to be recognized over the weighted average period of 2.73 years.

12. DEFINED CONTRIBUTION PLAN

The Company has a defined contribution savings plan for all eligible U.S. employees established under the provisions of Section 401(k) of the Internal Revenue Code. This plan was formed on January 1, 2022. Eligible employees may contribute a percentage of their salary subject to certain limitations. The Company’s contributions for each of the three months ended March 31, 2025 and 2024 was \$0.

13. COMMITMENTS AND CONTINGENCIES

Related Party Technology License Agreement

The Company is obligated to pay royalties and development and patent costs pursuant to the License Agreement dated as of September 30, 2016, with Syzygy, a company owned and controlled by stockholder and consultant to the Company, Mr. Elwood Norris, and Mr. James Barnes, a stockholder of the Company and consultant to the Company. The agreement provides for royalty payments of 4% of revenue from products employing the licensed ensnarement device technology up to an aggregate of \$1,000 in royalties or until September 30, 2026, whichever occurs earlier. The Company recorded \$0 and \$46 for the three months ended March 31, 2025 and 2024, respectively, related to such royalties. The maximum payout was satisfied as of June 30, 2024.

Purchase Commitments

As of March 31, 2025, the Company was committed for approximately \$509 for future component deliveries that are generally subject to modification or rescheduling in the normal course of business.

Indemnifications and Guarantees

Our officers and directors are indemnified as to personal liability as provided by Delaware law and the Company's articles of incorporation and bylaws. The Company may also undertake indemnification obligations in the ordinary course of business related to its operations. The Company is unable to estimate with any reasonable accuracy the liability that may be incurred pursuant to any such indemnification obligations now or in the future. Because of the uncertainty surrounding these circumstances, the Company's current or future indemnification obligations could range from immaterial to having a material adverse impact on its financial position and its ability to continue in the ordinary course of business. The Company has no liabilities recorded for such indemnities.

Regulatory Agencies

The Company is subject to oversight from regulatory agencies regarding firearms that arise in the ordinary course of its business.

Litigation

The Company is subject to litigation and other claims in the ordinary course of business. The Company records a provision for a liability relating to legal matters when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed and adjusted to include the impacts of negotiations, estimated settlements, legal rulings, advice of legal counsel, and other information and events pertaining to a particular matter. As of March 31, 2025, the Company had no provision for liability under existing litigation.

14. RELATED PARTY TRANSACTIONS

Series A Preferred Stock

On June 29, 2023, the Company entered into the Series A Purchase Agreement with certain investors, including Scot Cohen, the Company's Chief Executive Officer, and V4 Global LLC ("V4"). Mr. Cohen has voting and dispositive control with respect to the securities and is deemed to be the beneficial owner of the securities held by V4. Pursuant to the Series A Purchase Agreement, the Company issued Mr. Cohen and V4 an aggregate of 3,000 shares of Series A Preferred Stock and Series A Warrants to purchase up to an aggregate of 2,068,966 shares of Common Stock for aggregate gross proceeds of \$3,000. For the three months ended March 31, 2025, Mr. Cohen earned dividends totaling \$60 on his Series A Preferred Stock.

Consulting Services

Commencing in October 2017, the Company began reimbursing Mr. Elwood Norris, a former officer, current 5% or more stockholder and consultant of the Company, \$1.5 per month on a month-to-month basis for laboratory facility costs, which was terminated in January 2024 and \$7.5 per month on a month-to-month basis for invention consulting services, which was terminated in February 2024 for an aggregate of \$0 and \$15 during each of the three months ended March 31, 2025 and 2024, respectively.

The Company is obligated to pay royalties and development and patent costs pursuant to the License Agreement dated September 30, 2016, with Syzygy, a company owned and controlled by a 5% stockholder of the Company, Mr. Elwood Norris, and a former officer of the Company, Mr. James Barnes. The agreement provides for royalty payments of 4% of revenue from products employing the licensed ensnarement device technology up to an aggregate of \$1,000 in royalties or until September 30, 2026, whichever occurs earlier. During the three months ended March 31, 2025 and 2024, the Company incurred royalties to Syzygy of \$0 and \$46 respectively.

On February 24, 2025, the Company entered into the PIPE Purchase Agreement with certain accredited including: V4 Global, LLC ("V4"), an entity controlled by Mr. Cohen, the Company's Chief Executive Officer; Continuum Ventures, LLC ("Continuum"), an entity controlled by Jared Novick, the Company's President and Chief Operating Officer; and Savbo Investments LLC ("Savbo"), an entity controlled by Marc Savas, a member of the Company's Board, pursuant to which, the Company issued and sold in a private placement an aggregate of 3,216,666 shares of common stock and PIPE Warrants with an exercise price of \$1.80 per share, to purchase up to 3,216,666 shares of Common Stock (the "Private Placement"). Pursuant to the Private Placement, the Company sold to (i) V4 1,100,000 shares of Common Stock and PIPE Warrants to purchase up to an aggregate of 1,100,000 shares of Common Stock, for aggregate gross proceeds of \$1,980, (ii) Continuum an aggregate of 275,000 shares of Common stock and PIPE Warrants to purchase up to an aggregate of 275,000 shares of Common Stock for aggregate gross proceeds of \$495 and (iii) Savbo an aggregate of 50,000 shares of Common stock and PIPE Warrants to purchase up to an aggregate of 50,000 shares of Common Stock for aggregate gross proceeds of \$90.

See Notes 1, 7 and 13 for additional information on related party transactions and obligations.

15. MAJOR CUSTOMERS AND RELATED INFORMATION

For the three months ended March 31, 2025, revenue from three customers accounted for approximately 13%, 13% and 11% of revenue, respectively, with no other single customer accounting for more than 10% of total revenue. For the three months ended March 31, 2024, revenue from one distributor accounted for approximately 68% of revenues, with no other single customer accounting for more than 10% of total revenue.

At March 31, 2025, accounts receivable from two customers accounted for 15% and 15% of net accounts receivable with no other single customer accounting for more than 10% of the accounts receivable balance. At December 31, 2024, accounts receivable from one distributor accounted for 68% of net accounts receivable, with no other single customer accounting for more than 10% of the accounts receivable balance.

The following table summarizes revenue by geographic region. Revenue is attributed to countries based on customer's delivery location:

	For the Three Months Ended March 31,	
	2025	2024
Americas	\$ 651	\$ 1,463
Europe, Middle East and Africa	114	6
Asia Pacific	-	7
Total revenues	<u>\$ 765</u>	<u>\$ 1,476</u>

16. W1 ACQUISITION

On February 18, 2025, the Company and W1, entered into an Asset Purchase Agreement, dated as of February 18, 2025 (the "W1 Purchase Agreement"), pursuant which, subject to the terms and conditions set forth therein, the Company agreed to acquire substantially all the assets of W1 used in, held for use in or relating to the business of advisory and investigative professional services which were specific identified customer contracts. The Company recorded the transaction as an Asset Acquisition in accordance with ASC 805 and recorded \$54 as intangible assets included in Customer Relationships (See Note 6 "Intangible Assets" above). The Company has preliminarily assigned a three-year life to such Customer Relationships included as part of the W1 asset acquisition.

17. SUBSEQUENT EVENTS

The Company has reviewed activities through May 15, 2025, and determined that there are no subsequent events that require disclosure in accordance with ASC 855-10-25-1.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with the financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q (this "Report") and with our audited financial statements and other information presented in our Annual Report on Form 10-K for the year ended December 31, 2023 (the "Annual Report"). This Report may contain or incorporate by reference forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such forward-looking statements are based upon management's assumptions, expectations, projections, intentions and beliefs about future events. Except for historical information, the use of predictive, future-tense or forward-looking words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate," "continue," "may," "will," "could," "would," or the negative or plural of such words and similar expressions or variations of such words are intended to identify forward-looking statements but are not the only means of identifying forward-looking statements. Such forward-looking statements are subject to a number of risks, uncertainties, assumptions and other factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by the forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this Report and in our other filings with the Securities and Exchange Commission ("SEC"), including particularly matters set forth under Part I, Item 1A (Risk Factors) of the Annual Report. Furthermore, such forward-looking statements speak only as of the date of this Report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.

Overview

We are a global public safety technology and services company that delivers safe and effective policing solutions to law enforcement and security personnel worldwide. We are leading the movement for safer outcomes by equipping law enforcement with safer, non-painful compliance tools, and immersive training fit for modern society. We began sales of our first public safety product, the BolaWrap 100 remote restraint device, in late 2018. In the first quarter of 2022, we delivered a new generation product, the BolaWrap 150. The BolaWrap 150 is electronically deployed and is more robust, smaller, lighter and simpler to deploy than the BolaWrap 100 that has since been phased out. In late 2020 we added a new solution to our public safety technologies, our virtual reality ("VR") training platform, Wrap Reality, and in August 2023 we acquired Intrinsic, LLC, a Delaware limited liability company ("Intrinsic"), which added a Body-Worn Camera ("BWC") and Digital Evidence Management ("DEM") solution to our portfolio of policing solutions. Wrap Reality is now sold to law enforcement agencies for simulation training as well as corrections departments for the societal reentry scenarios.

Our target market for our solutions includes approximately 900,000 full-time sworn law enforcement officers in over 18,000 federal, state, and local law enforcement agencies in the U.S. and over 12 million police officers in more than 100 countries. Additionally, we are exploring opportunities in other domestic markets, such as military and private security. Our international focus is on countries with the largest police forces. According to 360iResearch, a market research consulting firm, our non-lethal products are part of a global market segment expected to grow to \$16.1 billion by 2027.

We focus our efforts on the following products and services:

BolaWrap Remote Restraint Device – a hand-held remote restraint device that discharges a seven and half-foot Kevlar tether to entangle an individual at a range of 10-25 feet. BolaWrap assists law enforcement to safely and effectively control encounters early without resorting to painful force options.

Wrap Reality – a law enforcement 3D training system employing immersive computer graphics VR with proprietary software-enabled content. It allows up to two participants to enter a simulated training environment simultaneously, and customized weapons controllers enable trainees to engage in strategic decision making along the force continuum. Wrap Reality has 45 scenarios for law enforcement and corrections and 15 scenarios for societal reentry. Wrap Reality is one of the most robust 3D Virtual Reality solutions on the market for law enforcement and societal reentry today.

Wrap Intrinsic – a Body-Worn Camera and Digital Evidence Management solutions provider. BWC and DEM play crucial roles in capturing, storing, and managing digital evidence, such as video and audio recordings for various purposes, including criminal investigations and maintaining transparency in public interactions. The Wrap Intrinsic X2 camera hardware and storage and data management capability, along with awareness of front-line operations, provides customers with a solution to meet their challenges. Wrap Intrinsic Evidence on our cloud-based video storage platform provides an unlimited video storage platform that includes video and other evidence uploading, search, retrieval, redaction, and evidence sharing while reducing the need for resources required to manage this evidence.

In addition to the U.S. law enforcement market, we have shipped our restraint products to 62 countries. We have established an active distributor network representing 50 states and one dealer representing the U.S. territory of Puerto Rico. We have distribution agreements with 35 international distributors covering 75 countries. We focus significant sales, training and business development efforts to support our distribution network in addition to our internal sales team.

We focus significant resources on research and development innovations and continue to enhance our products and plan to introduce new products. We believe we have established a strong brand and market presence globally and have established significant competitive advantages in our markets.

Acquisition of W1

On February 18, 2025, we entered into an Asset Purchase Agreement, dated as of February 18, 2025 (the "W1 Purchase Agreement"), pursuant which, subject to the terms and conditions set forth therein, we acquired substantially all the assets of W1 used in, held for use in or relating to the business of advisory and investigative professional services, which were primarily the customer contracts assigned at the closing, for a nominal purchase price.

Business Outlook and Challenges

We believe our Company's products and solutions are gaining global recognition and awareness through various channels such as social media, trade shows, and media exposure, among others. In part, this recognition and awareness can be attributed to positive feedback from law enforcement agencies and the successful deployment of our products. As a result, we believe our brand is becoming increasingly recognized on a global scale as a leader in remote restraint and non-lethal solutions.

In addition, we are focused on marketing and public relations efforts. We believe there are market opportunities for our remote restraint and virtual reality solutions in the law enforcement and security sectors worldwide. These opportunities are driven by the increasing demand for less-lethal policing.

In the law enforcement sector, our BolaWrap product has been successfully deployed in the field, as reported by many agencies. BolaWrap is now in use by over 900 U.S. law enforcement agencies and in 62 countries. Due to its safe remote restraint capabilities, some agencies do not deem its usage a categorical reportable use of force and rather place it underneath early use of force such as handcuffs. In our strategic roadmap, we clarified that law enforcement agencies deploy BolaWrap when verbal commands breakdown but long before there is justifiable escalation to pepper spray, pepper ball, batons, bean bags, tasers or Conducted Electrical Weapons (CEW's) or firearms.

Some agencies voluntarily report usage to Wrap but many do not. In the usage reports we have been provided, officers have reported successful outcomes in 84% of the use cases. This percentage is higher than what is often seen with less lethal tools. From the information we have been provided, the most common BolaWrap use case is for individuals with behavioral health issues, and the second most common BolaWrap use case is during domestic violence calls. 26% of the reported persons who are wrapped with the BolaWrap are thought to be under the influence of alcohol or drugs.

There are many reasons why we may not receive reports on all the use of the BolaWrap, including, when uses of BolaWrap are considered evidence in ongoing criminal cases, are controlled by local policy or regulation, or require officer and union permission to be shared with us. However, some agencies have shared bodycam footage of successful field deployments with us, which we may use in our training and education efforts. We believe that as the reports of BolaWrap's effectiveness in de-escalation continue to increase, it will contribute to our future revenue growth.

We anticipate and believe that our portfolio of safe, remote restraint products and training services has a strong and expanding pipeline of market opportunities in the law enforcement, military, corrections, and homeland security sectors both domestically and internationally. With the increasing demand for more humane and safer policing practices, we expect a continued surge in our global business. Currently, we are exploring major international business prospects while simultaneously seeking to establish relationships with large police agencies in the U.S. However, we acknowledge that it is challenging to predict the exact timeline for closing these deals, or whether they will ultimately materialize.

Management anticipates that our portfolio of products has a strong and expanding pipeline of market opportunities in the law enforcement, military, corrections, and homeland security sectors both domestically and internationally. With the increasing demand for more humane and safer policing practices, continued need for ongoing training and transparency for police encounters, we expect a continued surge in our global business. Currently, we are exploring major international business prospects while simultaneously seeking to establish relationships with large police agencies in the U.S. However, we acknowledge that it is challenging to predict the exact timeline for closing these deals, or whether they will ultimately materialize.

As part of our efforts to expand our sales and distribution operations, we provide a comprehensive training program for law enforcement officers and trainers in using the BolaWrap. This training equips them with knowledge about the appropriate use and limitations of BolaWrap in tandem with modern policing techniques for de-escalation of encounters. We now focus on also teaching when and why BolaWrap should be used, including the specific area of success, such as after verbal commands break down and before the law enforcement officer is ready to escalate to less lethal pain compliance tools. We believe that law enforcement trainers and officers who have been trained to use our products, or have witnessed demonstrations, are more inclined to support the acquisition and deployment of our products by their respective departments to drive successful outcomes. As of March 31, 2024, over 1,530 agencies have received BolaWrap training with over 5,400 training officers at those agencies certified as BolaWrap instructors and qualified to train the rest of their departments, representing an 10% increase in agencies and a 10% increase in trained officers as compared to March 31, 2024.

Operating expense of \$4.5 million for the three months ended March 31, 2025 decreased by \$458 thousand, when compared to \$5.0 million for the three months ended March 31, 2024, as a result of the Company's cost containment initiatives enacted beginning during the first half of 2024.

Although geopolitical tensions and macroeconomic challenges have affected our quarterly results in the past and may in the future, we believe our Company is uniquely positioned to provide lifesaving technologies and training that enable law enforcement officers worldwide to conduct safe and effective encounters while reducing the use of force. If departments follow our Use of Force Guarantee requirements, we have offered to buy back their BolaWrap devices if their reportable use of force is not reduced by 10%. With an increasing addressable market, the Company offers what we believe is a unique value proposition. Our improved pricing strategy, coupled with reduced operating expenses and our growing sales outlook, is expected to help reduce losses and improve cash flow in the future.

We plan to increase the number of product demonstrations and training sessions, particularly in international markets. Our new focus on the when and why BolaWrap is used has shown improved results. This is a departure from the hardware product only approach of the past. Our sales of the BolaWrap 150 and Wrap Reality are expected to continue to rise, aided by our ongoing cost savings and cost control measures, which we expect to lead to an overall reduction in cash burn.

As of March 31, 2025, we had backlog of approximately \$64 thousand which was expected to be delivered in the second quarter of 2025. Additionally, as of March 31, 2025, we had deferred revenue of \$350 thousand consisting of \$57 thousand related to VR, \$234 thousand related to Intrensic, \$54 thousand related to BolaWrap extended warranties and services and \$5 thousand related to training. Distributor and customer orders for future deliveries are generally subject to modification, rescheduling or in some instances, cancellation, in the normal course of business.

Since inception, we have generated significant losses from operations and anticipate that we will continue to generate significant losses from operations for the foreseeable future. We believe that we have adequate financial resources to sustain our operations for the twelve months. We recorded net income of \$109 thousand during the three months ended March 31, 2025, which was in-line with the net income of \$117 thousand for the three months ended March 31, 2024. Net cash used in operations during the three months ended March 31, 2025, was \$0.7 million less than net cash used in operations during the three months ended March 31, 2024. This decrease in net cash used in operations during the three months ended March 31, 2024, was primarily driven by the Company's continued cost containment efforts.

We expect that we will continue to innovate new applications for our public safety technology, open new geographies, develop new products and technologies to meet diverse customer requirements and identify and develop new markets for our products.

Supply chain disruptions also affected our operations and could negatively impact our ability to source materials, manufacture and distribute products in the future. Moreover, financial markets continue to experience significant volatility, which could potentially affect our ability to enter into or modify favorable terms and conditions regarding equity and debt financing activities. Nevertheless, we had \$6.2 million in cash and cash equivalents as of March 31, 2025. We therefore believe we have sufficient capital to fund our operations for the next twelve months following this Report on Form 10-Q. However, we may require additional working capital and liquidity constraints and access to capital markets could still negatively affect our liquidity and may require changes to our plan of operations.

Our Company may be positively or negatively impacted by continued social unrest, protests against racial inequality, and movements like "Defund the Police." Such unrest may be further fueled by misleading information or negative publicity about our solutions. We believe our solutions are the answer to reducing use of force and driving safer outcomes for officers and the citizens they interact with each day. Although the intensity of these events may have subsided, some may still indirectly or directly, influence police agency budgets and the funding available to current and potential customers. In addition, participants in these events may attempt to create the impression that our solutions are contributing to the perceived problems, potentially harming our business and operations, including our revenues, earnings, and cash flows from operations.

Changes in our management and other critical personnel have the potential to positively or negatively affect our business. Such disruptions could have an adverse impact on our operations, programs, growth, financial condition, or results of operations. On the other hand, improvements in our operations, operating expenses, and go-to-market approaches could positively influence the success of our business in the future.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expense, and related disclosure of contingent assets and liabilities. We evaluate our estimates, on an on-going basis, including those estimates related to recognition and measurement of contingencies and accrued expense. We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

As part of the process of preparing our financial statements, we are required to estimate our provision for income taxes. Significant management judgment is required in determining our provision for income taxes, deferred tax assets and liabilities, tax contingencies, unrecognized tax benefits, and any required valuation allowance, including taking into consideration the probability of the tax contingencies being incurred. Management assesses this probability based upon information provided by its tax advisers, its legal advisers and similar tax cases. If later our assessment of the probability of these tax contingencies changes, our accrual for such tax uncertainties may increase or decrease. Our effective tax rate for annual and interim reporting periods could be impacted if uncertain tax positions that are not recognized are settled at an amount which differs from our estimates.

Some of our accounting policies require higher degrees of judgment than others in their application. These include share-based compensation and contingencies and areas such as revenue recognition, allowance for doubtful accounts, valuation of inventory and intangible assets, estimates of product line exit costs, warranty liabilities and impairments.

Revenue Recognition. We sell our products to customers including law enforcement agencies, domestic distributors and international distributors and revenue from such transactions is recognized in the periods that products are shipped (free on board (“FOB”) shipping point) or received by customers (FOB destination), when the fee is fixed or determinable and when collection of resulting receivables is reasonably assured. We identify customer performance obligations, determine the transaction price, allocate the transaction price to the performance obligations and recognize revenue as we satisfy the performance obligations. Our primary performance obligations are products/accessories and VR software licensing or sale. Our customers do not have the right to return product unless the product is found to be defective.

Share-Based Compensation. We follow the fair value recognition provisions issued by the Financial Accounting Standards Board (“FASB”) in Accounting Standards Codification (“ASC”) Topic 718, Stock Compensation (“ASC 718”) and we adopted Accounting Standards Update (“ASU”) 2018-07 for share-based transactions with non-employees. Share-based compensation expense recognized includes stock option and restricted stock unit compensation expense. The grant date fair value of stock options is determined using the Black-Scholes option-pricing model. The grant date is the date at which an employer and employee or non-employee reach a mutual understanding of the key terms and conditions of a share-based payment award. The Black-Scholes option-pricing model requires inputs including the market price of the Company’s Common Stock on the date of grant, the term that the stock options are expected to be outstanding, the implied stock volatilities of several publicly traded peers over the expected term of stock options, risk-free interest rate and expected dividend. Each of these inputs is subjective and generally requires significant judgment to determine. The grant date fair value of restricted stock units is based upon the market price of the Company’s Common Stock on the date of the grant. We determine the amount of share-based compensation expense based on awards that we ultimately expect to vest and account for forfeitures as they occur. The fair value of share-based compensation is amortized to compensation expense over the vesting term.

Allowance for Doubtful Accounts. Our products are sold to customers in many different markets and geographic locations. We estimate our bad debt reserve on a case-by-case basis and the aging of accounts due to a limited number of customers mostly government agencies or well-established distributors. We base these estimates on many factors including customer credit worthiness, past transaction history with the customer, current economic industry trends and changes in customer payment terms. Our judgments and estimates regarding collectability of accounts receivable have an impact on our financial statements.

Valuation of Inventory. Our inventory is comprised of raw materials, assemblies and finished products. We must periodically make judgments and estimates regarding the future utility and carrying value of our inventory. The carrying value of our inventory is periodically reviewed and impairments, if any, are recognized when the expected future benefit from our inventory is less than carrying value.

Valuation of Intangible Assets. Intangible assets consisted of (a) capitalized legal fees and filing expense related to obtaining patents and trademarks, (b) customer agreements, tradenames, software, non-solicitation and non-compete agreements acquired in business combinations and valued at fair value at the acquisition date, and (c) the purchase cost of indefinite-lived website domains. We must make judgments and estimates regarding the future utility and carrying value of intangible assets. The carrying values of such assets are periodically reviewed and impairments, if any, are recognized when the expected future benefit to be derived from an individual intangible asset is less than carrying value. This generally could occur when certain assets are no longer consistent with our business strategy and whose expected future value has decreased.

Accrued Expense. We establish a warranty reserve based on anticipated warranty claims at the time product revenue is recognized. This reserve requires us to make estimates regarding the amount and costs of warranty repairs we expect to make over a period of time. Factors affecting warranty reserve levels include the number of units sold, anticipated cost of warranty repairs, and anticipated rates of warranty claims. We have very limited history to make such estimates and warranty estimates have an impact on our financial statements. Warranty expense is recorded in cost of revenue. We evaluate the adequacy of this reserve each reporting period.

We use the recognition criteria of FASB ASC Topic 450-20, Loss Contingencies, to estimate the amount of bonuses when it becomes probable a bonus liability will be incurred and we recognize expense ratably over the service period. We accrue bonus expense each quarter based on estimated year-end results, and then adjust the actual in the fourth quarter based on our final results compared to targets.

Warrants. The Company accounts for warrants as liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own shares of Common Stock and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

Business Combination. The Company accounts for its business combinations under the provisions of Accounting Standards Codification ("ASC") Topic 805-10, Business Combinations ("ASC 805-10"), which requires that the purchase method of accounting be used for all business combinations. Assets acquired and liabilities assumed, including non-controlling interests, are recorded at the date of acquisition at their respective fair values. The estimated fair value of net assets acquired, including the allocation of the fair value to identifiable assets and liabilities, was determined using established valuation techniques. ASC 805-10 also specifies criteria that intangible assets acquired in a business combination must meet to be recognized and reported apart from goodwill. Goodwill represents the excess purchase price over the fair value of the tangible net assets and intangible assets acquired in a business combination. Acquisition-related expenses are recognized separately from the business combinations and are expensed as incurred.

The estimated fair value of the acquired intangible assets was determined using a method which reflects the present value of the operating cash flows generated by this asset after taking into account the cost to realize the revenue, and an appropriate discount rate to reflect the time value and risk associated with the invested capital.

Certain adjustments to the assessed fair values of the assets and liabilities made subsequent to the acquisition date, but within the measurement period, which is up to one year, are recorded as adjustments to goodwill. Any adjustments subsequent to the measurement period are recorded in income.

Historically, our assumptions, judgments and estimates relative to our critical accounting policies have not differed materially from actual results. Other than the warrants and business combination described above, there were no significant changes or modification of our critical accounting policies and estimates involving management valuation adjustments affecting our results for the period ended March 31, 2025. Our accounting policies are more fully described in Note 1, Organization and Summary of Significant Accounting Policies in the notes to our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2024, as filed with the SEC on March 31, 2025.

Segment and Related Information

The Company operates as a single segment. The Company's chief operating decision maker is Scot Cohen, the Company's Executive Chairman and Chief Executive Officer, who manages operations for purposes of allocating resources. Refer to Note 15, Major Customers and Related Information, in our financial statements for further discussion.

Operating Expense

Our operating expense includes (i) selling, general and administrative expense, (ii) research and development expense, and in the most recent fiscal quarter, and (iii) product line exit expense. Research and development expense is comprised of the costs incurred in performing research and development activities and developing production on our behalf, including compensation and consulting, design and prototype costs, contract services, patent costs and other outside expense. The scope and magnitude of our future research and development expense is difficult to predict at this time and will depend on elections made regarding research projects, staffing levels and outside consulting and contract costs. The future level of selling, general and administrative expense will be dependent on staffing levels, elections regarding expenditures on sales, marketing and customer training, the use of outside resources, public company and regulatory expense, and other factors, some of which are outside of our control.

We expect our operating costs will continue to stabilize or decline slightly from the first quarter of 2025 as a result of the changes from ongoing cost containment efforts. We may incur additional non-cash share-based compensation costs depending on future options and restricted stock unit grants that are impacted by stock prices and other valuation factors. Historical expenditures are not indicative of future expenditures.

Results of Operations

Three Months Ended March 31, 2025, Compared to Three Months Ended March 31, 2024 (Unaudited)

The following table sets forth for the periods indicated certain items of our condensed consolidated statement of operations. The financial information and the discussion below should be read in conjunction with the financial statements and notes contained in this Quarterly Report on Form 10-Q.

	Three Months Ended March 31,		Change	
	2025	2024	\$	%
	(in thousands, except percentage change)			
Revenues:				
Product sales	\$ 353	\$ 1,327	\$ (974)	(73)%
Managed services	234	-	234	-%
Other revenue	178	149	29	19%
Total revenues	765	1,476	(711)	(48)%
Cost of revenue	170	640	(470)	(73)%
Gross profit	595	836	(241)	(29)%
Operating expenses:				
Selling, general and administrative	4,139	4,220	(81)	(2)%
Research and development	378	755	(377)	(50)%
Total operating expenses	4,517	4,975	(458)	(9)%
Loss from operations	\$ (3,922)	\$ (4,139)	\$ 217	5%

Revenue

We reported net revenue of \$765 thousand for the three months ended March 31, 2025, as compared to \$1.5 million for the three months ended March 31, 2024, or a 48% decrease. The decrease for the three months ended March 31, 2025, as compared to March 31, 2024, is primarily a result of lower product orders offset by the added managed services revenue from the acquisition of the W1 business.

Gross Profit

Our gross profit for the three months ended March 31, 2025, was \$595 thousand, or a gross margin of 78%. Our gross profit for the three months ended March 31, 2024, was \$836 thousand, or a gross margin of 57%. The decrease in gross profit represented a 29% decrease compared to the three months ended March 31, 2024, as a result of lower volume of the Bola Wrap 150 product sales offset by the added high-margin revenue from the Company's Intinsic acquisition in August 2023 and acquisition of W1 in February 2025.

As our revenue history is limited, historical margins may not accurately reflect future margins. However, we expect higher margins with the production of the BolaWrap 150 compared to previous production due to design changes and improved pricing as well as our higher margin revenue from the Intinsic product offerings. Our margins are also subject to variations based on the sales channels and product mix through which our products are sold. At present, our cassettes have lower margins than BolaWrap devices. As we scale cassette production, we will look to reduce our costs and drive higher cassette margins. Cassettes were a total of 10% of our overall revenue in the three months ended March 31, 2025, and is expected to continue to grow as a recurring revenue base as more BolaWrap devices are in the field and the usage of BolaWrap increases due to the need of officers to de-escalate earlier to prevent injuries and use of higher levels of force. Additionally, we expect that gross margins will be impacted by the added managed services and software revenue contributions in the second half of 2025.

We regularly introduce updates and revisions to our products, which may include changes to raw materials and components, and can impact our product costs. Given our limited experience with warranty costs, our estimated future warranty expense may affect our gross margins.

Our global supply chain has experienced notable component shortages, extended lead times, cost fluctuations, and logistical constraints, all of which have affected our product costs. Although we have seen these supply chain obstacles ease in 2025, we acknowledge that future supplier shortages, quality problems, and logistics delays could impact our production schedules and have a material negative impact on our financial condition, results of operation, and cash flows.

Selling, General and Administrative Expense

Selling, general and administrative ("SG&A") expense of \$4.1 million for the three months ended March 31, 2025, was reduced by \$0.1 million when compared to \$4.2 million for the three months ended March 31, 2024. The decrease in SG&A expense was primarily the result of the Company's cost containment initiatives enacted beginning during the first half of 2024 which were offset by an increase of \$1.0 million in share-based compensation as well as by increased occupancy expenses related to the new office space in Florida.

Share-based compensation costs allocated to SG&A totaled \$1.6 million thousand for the three months ended March 31, 2025, compared to \$675 thousand for the three months ended March 31, 2024, primarily due to options and grants issued to new employees as a result of the acquisition of W1 in February 2025, as well as incentives provided to certain key senior level management in 2025.

Salaries and burden costs of \$799 thousand for the three months ended March 31, 2025, were approximately \$0.6 million lower than the three months ended March 31, 2024. This reduction reflects the reduction in the Company's workforce including a reduction of certain C-Level positions. During the three months ended March 31, 2025, as compared to the three months ended March 31, 2024, we decreased professional and consulting fees by \$95 thousand reflecting the Company's cost containment efforts. We expect expenditures for SG&A expenses in 2025 to increase from the first quarter's run-rate as a result of the W1 acquisition.

Advertising and promotion costs were \$81 thousand for the three months ended March 31, 2025, or a decrease of \$182 thousand as compared to \$263 thousand during the three months ended March 31, 2024. The changes in advertising costs were primarily related to reduced trade show costs offset by slight increases in digital marketing campaigns.

Research and Development Expense

Research and development expense totaling \$378 thousand decreased by \$377 thousand for the three months ended March 31, 2025, when compared to the three months ended March 31, 2024. We incurred a \$309 thousand period-over-period decrease in compensation expense as well as a \$34 thousand period-over-period increase in share-based compensation expense allocated to research and development expense as a result of reduction of personnel. Outside consulting costs decreased by \$21 thousand for the three months ended March 31, 2025, when compared to the three months ended March 31, 2024, primarily due to the Company's move to a more variable cost model.

Operating Loss

Loss from operations of \$3.9 million during the three months ended March 31, 2025, was a decrease of \$0.2 million compared to loss from operations of \$4.1 million during the three months ended March 31, 2024, primarily reflecting the reduced revenues offset by lower operating costs from the Company's cost containment efforts.

Liquidity and Capital Resources

Overview

Our primary source of liquidity to date has been funding from our stockholders from the sale of equity securities and the exercise of derivative securities, consisting of options and warrants. We expect our primary source of future liquidity will be from the sale of products, exercise of stock options and warrants and from future equity or debt financings.

We have experienced net losses and negative cash flows from operations since our inception. As of March 31, 2025, we had cash of \$6.2 million, negative working capital of \$0.3 million including the \$11.3 million of the Series A Warrants recorded in connection with the issuance of the Series A Preferred Stock in July 2023 as well as the PIPE Warrants (as defined herein) issued in connection with the Private Placement (as defined herein), and had sustained cumulative losses attributable to stockholders of \$105.1 million. Our working capital net of the warrants-short term as of March 31, 2025, was \$3.6 million higher compared to December 31, 2024, primarily as a result of the cash received in the Private Placement offset by operating losses of \$3.9 million for the three months ended March 31, 2025. We believe we have sufficient capital to fund our operations for the next twelve months from the date of this Quarterly Report on Form 10-Q. However, liquidity constraints and access to capital markets could still negatively affect our liquidity and may require changes to our investment strategy.

Capital Requirements

Our future liquidity requirements or future capital needs will depend on, among other things, capital required to introduce new products and the operational staffing and support requirements, as well as the timing and amount of future revenue and product costs. We anticipate that demands for operating and working capital may grow depending on decisions on staffing, development, production, marketing, training and other functions and based on other factors outside of our control, including the timing of receipt of revenue.

Our future capital requirements, cash flows and results of operations could be affected by, and will depend on, many factors, some of which are currently unknown to us, including, among other things:

- Any future outbreaks pandemics or contagious diseases or fear of such outbreaks;
- Decisions regarding staffing, development, production, marketing and other functions;
- The timing and extent of market acceptance of our products;
- Costs, timing and outcome of planned production and required customer and regulatory compliance of our products;
- Costs of preparing, filing and prosecuting our patent applications and defending any future intellectual property-related claims;
- Costs and timing of additional product development;
- Costs, timing and outcome of any future warranty claims or litigation against us associated with any of our products;
- Ability to collect accounts receivable; and
- Timing and costs associated with any new financing.

Principal factors that could affect our ability to obtain cash from external sources including from exercise of outstanding warrants and options include:

- Volatility in the capital markets; and
- Market price and trading volume of our Common Stock.

2023 Offering

On June 29, 2023, the Company entered into a Series Purchase Agreement (“Series A Purchase Agreement”) with certain accredited investors, including the Company’s Executive Chairman and Chief Executive Officer (collectively, the “Series A Investors”), pursuant to which it agreed to sell to the Series A Investors in a registered direct offering (the “Series A Offering”) (i) an aggregate of 10,000 shares of Series A Preferred Stock, initially convertible into up to 6,896,553 shares of the Company’s Common Stock, at an initial conversion price of \$1.45 per share, and (ii) warrants (the “Series A Warrants”) to acquire up to an aggregate of 6,896,553 shares of Common Stock (the “Series A Warrant Shares”). The conversion price of the Series A Preferred Stock is subject to customary adjustments for stock dividends, stock splits, reclassifications and the like, and subject to price-based adjustment in the event of any issuances of Common Stock, or securities convertible, exercisable or exchangeable for Common Stock, at a price below the then-applicable conversion price (subject to certain exceptions). The closing of the Series A Offering occurred on July 3, 2023. The aggregate gross proceeds from the Series A Offering were \$10 million. The Company expects to use the net proceeds from the Series A Offering for general corporate purposes.

The Company engaged Katalyst Securities LLC (the “Placement Agent”) to act as exclusive placement agent in connection with the Series A Offering. Pursuant to an Engagement Letter with the Placement Agent, we paid to the Placement Agent or its designees (i) a cash fee equal to 8% of the gross proceeds of the Series A Offering and (ii) warrants to purchase an aggregate of 551,725 shares of Common Stock (equal to 8% of the shares of Common Stock underlying the Series A Preferred Stock sold in the Series A Offering) at an exercise price of \$1.45 per share.

Series A Preferred Stock

On July 3, 2023, the Company filed the Certificate of Designations of the Series A Preferred Stock (the “Certificate of Designations”) with the Secretary of State of the State of Delaware, designating 10,000 shares of its Preferred Stock as Series A Convertible Preferred Stock. The Series A Preferred Stock is convertible into shares of Common Stock (the “Conversion Shares”) at the election of the holder at any time at an initial conversion price of \$1.45 (the “Conversion Price”). The Conversion Price is subject to customary adjustments for stock dividends, stock splits, reclassifications and the like, and subject to price-based adjustment in the event of any issuances of Common Stock, or securities convertible, exercisable or exchangeable for Common Stock, at a price below the then-applicable Conversion Price (subject to certain exceptions).

The holders of the Series A Preferred Stock are entitled to dividends of 8% per annum, compounded monthly, which are payable in cash or shares of Common Stock, or a combination thereof, at the Company’s option in accordance with the terms of the Certificate of Designations. Upon the occurrence and during the continuance of a Triggering Event (as defined in the Certificate of Designations), the Series A Preferred Stock will accrue dividends at the rate of 20% per annum. If the Company elects to pay any dividends in shares of Common Stock, the Conversion Price used to calculate the number of shares issuable will equal to the lower of (i) the then applicable Conversion Price and (ii) 85% of the arithmetic average of the three (3) lowest closing prices of the Company’s Common Stock during the twenty (20) consecutive trading day period ending on the trading day immediately preceding the dividend payment date, provided that such price shall not be lower than the lower of (x) \$0.2828 (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) and (y) 20% of the “Minimum Price” (as defined in Nasdaq Stock Market Rule 5635) on the date of the Stockholder Approval (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) or, in any case, such lower amount as permitted, from time to time, by the Nasdaq Stock Market.

On August 19, 2024, the Company entered into an Amendment Agreement (the “August 2024 Amendment”) with the Required Holders (as defined in the Certificate of Designations). Pursuant to the August 2024 Amendment, the Required Holders agreed that (A) the unpaid and accrued dividends on the Series A Preferred Stock due July 1, 2024 (the “July Delinquent Dividend Amount”), shall be payable, at the option of the Company, in (i) cash and/or (ii) shares of Common Stock, at a price per share of Common Stock equal to the lower of (x) \$1.00 and (y) the Dividend Conversion Price (as defined in the Certificate of Designations), using July 1, 2024, as the applicable date of determination in accordance with the Certificate of Designations; (B) the dividends due on October 1, 2024 (the “October Dividend Amount” and, together with the July Delinquent Dividend Amount, the “Delinquent Dividend Amounts”), shall be payable in shares of Common Stock based on a per share price of Common Stock equal to 80% of the arithmetic average of the three (3) lowest closing sale prices of the Common Stock during the month of September 2024; and (C) such Delinquent Dividend Amounts and any Dividend Balance Shares (as defined in the Certificate of Designations), with respect thereto, if applicable, shall be delivered on October 1, 2024. The Company and the Required Holders further agreed pursuant to the August 2024 Amendment to amend (i) the Certificate of Designations, as described below, by filing a Certificate of Amendment to the Certificate of Designations (the “August 2024 Certificate of Amendment”) and (ii) the Series A Purchase Agreement to amend the definition of “Excluded Securities.” The August 2024 Certificate of Amendment amends the Certificate of Designations to, among other things, (A) allow for the payment of dividends in the form of Common Stock to a holder of the Series A Preferred Stock who serves as a director, officer or employee of the Company; provided that such issuance is approved by the Company’s stockholders prior to such issuance, and (B) amend certain conditions required for (i) a mandatory conversion of the Series A Preferred Stock, and (ii) the Company’s right to redeem, all or a portion, of the Series A Preferred Stock outstanding pursuant to an optional redemption, in each case, pursuant to the terms of the Certificate of Designations.

On October 14, 2024, the Company entered into an Amendment Agreement with the Required Holders (as defined in the Certificate of Designations), pursuant to which, the Required Holders agreed to amend the Certificate of Designations of the Company's Series A Preferred Stock, as described below, by filing a Certificate of Amendment to the Certificate of Designations (the "October 2024 Certificate of Amendment"). The October 2024 Certificate of Amendment amends the Certificate of Designations to, among other things, provide that, except as required by applicable law, the holders of the Series A Preferred Stock will be entitled to vote with holders of the Common Stock on an as converted basis, with the number of votes to which each holder of Series A Preferred Stock is entitled to be calculated assuming a conversion price of \$1.414 per share, which was the Minimum Price (as defined in Rule 5635 of the Rule of the Nasdaq Stock Market) applicable immediately before the execution and delivery of the Series A Purchase Agreement, subject to certain beneficial ownership limitations as set forth in the Certificate of Designations. The October 2024 Certificate of Amendment further provides that (i) certain holders of the Series A Preferred Stock will not be subject to certain beneficial ownership limitations as described in the Certificate of Designations, and (ii) stockholder approval will not be required in connection with the payment of dividends in the form of Common Stock to a holder of the Series A Preferred Stock who serves as a director, officer or employee of the Company. The October 2024 Certificate of Amendment was filed with the Secretary of State of the State of Delaware, effective as of October 14, 2024. The holders of the Series A Preferred Stock have no voting rights, other than with respect to certain matters affecting the rights of the Series A Preferred Stock.

On November 25, 2024, the Company entered into an Amendment and Agreement with the Series A Investors (the "November 2024 Amendment Agreement"), pursuant to which, (i) the Series A Investors agreed to amend the Certificate of Designations, as described below, by filing a Certificate of Amendment to the Certificate of Designations with the Secretary of State (the "November 2024 Certificate of Amendment"), and (ii) the Series A Investors and the Company agreed that all payment amounts that have accrued and are unpaid as of November 25, 2024, pursuant to the Certificate of Designations and the August 2024 Amendment will be satisfied by delivery of shares of Common Stock on or prior to November 25, 2024, with each Series A Investor entitled to receive the number of shares of Common Stock specified below such Series A Investor's name on its respective signature page thereto. The November 2024 Certificate of Amendment amends the Certificate of Designations to provide that upon the occurrence of a Triggering Event (as defined in the Certificate of Designations), the Series A Preferred Stock will accrue dividends compounded monthly at the rate of 20% per annum. The Certificate of Amendment became effective with the Secretary of State on December 6, 2024.

The Company may require holders to convert their shares of Series A Preferred Stock into shares of Common Stock if the closing price of the Company's Common Stock exceeds \$8.00 per share (subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations or other similar events) for 20 consecutive trading days and the daily dollar trading volume of the Common Stock exceeds \$2,000,000 per day during the same period, provided that certain equity conditions described in the Certificate of Designations are satisfied.

At any time beginning 18 months from the date of the issuance, provided that provided that that the Company has filed all reports required to be filed by it pursuant to the Exchange Act on a timely basis for a continuous period of one year and provided further that certain equity conditions described in the Certificate of Designations are satisfied, the Company has the right to redeem in cash all or some of the shares of the Series A Preferred Stock outstanding at such time at a redemption price equal to the product of (x) 125% multiplied by (y) the sum of (A) the stated value of the Series A Preferred Stock plus (B) all declared and unpaid Dividends on such Preferred Stock and any other unpaid amounts then due and payable hereunder with respect to such Series A Preferred Stock, plus (C) the make-whole amount, plus (D) any accrued and unpaid late charges with respect to such stated value and amounts payable pursuant to clause (B) as of such date of determination.

The Certificate of Amendment amends the Certificate of Designations to, among other things, (A) allow for the payment of dividends in the form of Common Stock to a holder of the Series A Preferred Stock who serves as a director, officer or employee of the Company; provided that such issuance is approved by the Company's stockholders prior to such issuance, and (B) amend certain conditions required for (i) a mandatory conversion of the Series A Preferred Stock, and (ii) the Company's right to redeem, all or a portion, of the Series A Preferred Stock outstanding pursuant to an optional redemption, in each case, pursuant to the terms of the Certificate of Designations.

There is no established public trading market for the Series A Preferred Stock and we do not intend to list the Series A Preferred Stock on any national securities exchange or nationally recognized trading system.

Warrants

The Company issued the Series A Warrants to purchase up to an aggregate of 6,896,553 shares of Common Stock. Each Series A Warrant has an exercise price of \$1.45 per share, became exercisable after the date that was six months from the date of issuance and will expire 5 years following the date of issuance. The exercise price is subject to customary adjustments for stock dividends, stock splits, reclassifications and the like, and subject to price-based adjustment, on a "full ratchet" basis, in the event of any issuances of Common Stock, or securities convertible, exercisable or exchangeable for Common Stock, at a price below the then-applicable exercise price (subject to certain exceptions).

Nasdaq Stockholder Approval

The Company's ability to issue Conversion Shares and Series A Warrant Shares using shares of Common Stock is subject to certain limitations set forth in the Certificate of Designations. Prior to receiving the Nasdaq Stockholder Approval, such limitations included a limit on the number of shares that may be issued until the time, if any, that the Company's stockholders have approved the issuance of more than 19.99% of the Company's outstanding shares of Common Stock in accordance with the rules of the Nasdaq Stock Market (the "Nasdaq Stockholder Approval"). Such Nasdaq Stockholder Approval was received at a special meeting of stockholders held on September 19, 2023.

2025 Offering

On February 24, 2025, the Company entered into a securities purchase agreement (the "PIPE Purchase Agreement") with certain accredited investors (collectively, the "PIPE Purchasers") for the issuance and sale in a private placement (the "Private Placement") of an aggregate of 3,216,666 shares (the "Common Shares") of Common Stock and accompanying warrants ("PIPE Warrants") to purchase up to 3,216,666 shares of Common Stock, with an exercise price of \$1.80 per share. The purchase price for one Common Share and accompanying PIPE Warrant was \$1.80. The gross proceeds to the Company were \$5,790 before estimated offering expenses payable by the Company.

Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet financial guarantees or other off-balance sheet commitments to guarantee the payment obligations of any third parties. The Company has not entered into any derivative contracts that are indexed to the Company's shares and classified as stockholder's equity or that are not reflected in the Company's financial statements included in this Quarterly Report on Form 10-Q. Furthermore, the Company does not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. The Company does not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or product development services with us.

Cash Flows

Cash Flows from Operating Activities

During the three months ended March 31, 2025, net cash used in operating activities was \$3.1 million. The net income of \$109 thousand was decreased by non-cash income of \$4.0 million related to the change in fair value of warrants and increased by non-cash expense of \$1.9 million consisting primarily of share-based compensation expense of \$1.7 million and depreciation and amortization of \$155 thousand. Other major component changes using operating cash included an increase of \$404 thousand in prepaids and a \$184 thousand increase in accounts receivable as well as a decrease in both accounts payable of \$115 thousand and accrued liabilities of \$272 thousand.

During the three months ended March 31, 2024, net cash used in operating activities was \$3.7 million. The net income of \$117 thousand was decreased by non-cash income of \$4.2 million related to the change in fair value of warrants and increased by non-cash expense of \$1.1 million consisting primarily of share-based compensation expense of \$848 thousand. Other major component changes using operating cash included an increase of \$584 thousand in inventories and a decrease in accounts receivable of \$683 thousand.

Cash Flows from Investing Activities

During the three months ended March 31, 2025, we used \$54 thousand of cash for the acquisition of W1 and invested \$47 thousand in patents.

During the three months ended March 31, 2024, we had proceeds from maturities of short-term investments of \$2.5 million. During the three months ended March 31, 2024, we used \$14 thousand cash for the purchase of property and equipment and invested \$66 thousand in patents and equipment.

Cash Flows from Financing Activities

During the three months ended March 31, 2025, we received \$5.7 million in net proceeds from a Private Placement.

During the three months ended March 31, 2024, we received \$588 thousand in proceeds from the exercise of previously issued stock options and paid \$60 thousand in cash dividends on the Company's Series A Preferred Stock.

Contractual Obligations and Commitments

Pursuant to that certain exclusive Amended and Restated Intellectual Property License Agreement dated September 30, 2016, by and between the Company and Syzygy Licensing, LLC (“Syzygy”), we are obligated to pay to Syzygy a 4% royalty fee on future product sales up to an aggregate amount of \$1.0 million in royalty payments or until September 30, 2026, whichever occurs earlier. We recorded \$66 thousand for royalties during the three months ended March 31, 2025. The maximum payout has been reached as of June 30, 2024, and we have included \$81 thousand in our accrued liabilities.

In January 2022, we extended our Tempe, Arizona facility lease for three years through July 2025 and we are committed to aggregate lease payments on the facility lease of \$126 thousand in 2024 and \$75 thousand in 2025.

In September 2023, we committed to a lease of office space in Coconut Grove, Florida in a multi-year term concluding in 2031 which includes aggregate lease payments remaining totaling \$3.6 million.

As of March 31, 2025, we were committed to approximately \$509 thousand for future component deliveries and contract services that are generally subject to modification or rescheduling in the normal course of business.

Effects of Inflation

During the three months ended March 31, 2025, and for the year ended December 31, 2024, we had experienced increased costs in labor and materials due to inflation. We believe throughout 2025 that low unemployment and higher salaries will create higher payroll costs and increased operating expense in the business. We have seen increases in costs from multiple suppliers for materials as well as labor.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Executive Chairman and Chief Executive Officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the period covered by this report. Based upon that evaluation, our Executive Chairman and Chief Executive Officer concluded that, as of the end of the period covered in this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective to ensure that information required to be disclosed in reports filed by us under the Exchange Act is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our Executive Chairman and Chief Executive Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during our fiscal quarter ended March 31, 2025, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may become involved in legal proceedings or be subject to claims arising in the ordinary course of business.

The information set forth in Note 13 Commitments and Contingencies of the Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q is incorporated by reference herein.

Item 1A. Risk Factors

Management is not aware of any material changes to the risk factors discussed in Part 1, Item 1A, of the Company's Annual Report on Form 10-K for the year ended December 31, 2024. In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors discussed in Part 1, Item 1A, of the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and subsequent reports filed pursuant to the Exchange Act which could materially and adversely affect the Company's business, financial condition, results of operations, and stock price. The risks described in the Company's Annual Report on Form 10-K and subsequent reports filed pursuant to the Exchange Act are not the only risks facing the Company. Additional risks and uncertainties not presently known to management, or that management presently believes not to be material, may also result in material and adverse effects on our business, financial condition, and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of the Company's equity securities during the three months ended March 31, 2025, other than those previously reported in a Current Report on Form 8-K.

Item 3. Defaults Upon Senior Securities

There has been no default in the payment of principal, interest, sinking or purchase fund installment, or any other material default, with respect to any indebtedness of the Company.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.

Item 6. Exhibits

Principal Financial Officer and Principal
Accounting Officer)

CERTIFICATION PURSUANT TO SARBANES-OXLEY ACT OF 2002

I, Scot Cohen, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Wrap Technologies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

The undersigned hereby certifies, in accordance with 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, in his or her capacity as an officer of Wrap Technologies, Inc. (the “*Company*”), that, to his or her knowledge, the Quarterly Report of the Company on Form 10-Q for the period ended March 31, 2025, fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended, and that the information contained in such report fairly presents, in all material respects, the financial condition and results of operation of the Company.

Date: May 15, 2025

Scot Cohen

Chief Executive Officer

(Principal Executive Officer and Interim Principal Financial Officer and Principal Accounting Officer)

The foregoing certification is being furnished solely to accompany the Report pursuant to 18 U.S.C. Section 1350, and is not being filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not to be incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing. A signed original of this written statement required by Section 906 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.
